## Applications Developed

### Sheynanigans Bakery – [Live](#) | [GitHub](#)

*A full stack React and Node.js shopping cart application*

- Frontend built with React and Bootstrap
- Backend developed with Node.js using express server and express sessions with PostgreSQL as the database

### Ambiencer – [Live](#) | [GitHub](#)

*Web app that aggregates content based on the mood set by the user.*

- Made API calls using AJAX and displayed sorted results on DOM
- Single Page Application(SPA) scripted with jQuery

### My Hero Memory – [Live](#) | [GitHub](#)

*A basic memory match based off of the popular anime “My Hero Academia”*

- Used Javascript/jQuery to dynamically display cards on the DOM
- Utilized Bootstrap CSS library to style the page

### Property Manager– [GitHub](#)

*An application to help property managers and tenants manage their properties.*

- Final team project for web development program
- Lead Frontend Developer
- Backend programmed with PHP and MySQL

## Education

### LearningFuze Web Development Program | Web Development

### Saddleback College | Music

## Technical Skills

### Strong

Javascript

jQuery

React

HTML

CSS

Bootstrap

### Experienced

Flexbox

CSS Grid

PHP

Node

MySQL

PostgreSQL

### Tools

Firebase

Chrome Dev Tools

Meister Task

Postman

AWS

### Hobbies

I like the sport of weightlifting and trained in the sport for a few years. I came close to competing before I moved to Mexico.

I like to learn new things. I play guitar, alto sax, drums and piano.
